Lucknow, U.P • vikashkushwaha583@gmail.com • +91 8795474259 • Portfolio :- [thevikash.site](https://thevikash.site)

## PROFESSIONAL SUMMARY

Goal-oriented and enthusiastic B.Tech Computer Science & Engineering student with a strong focus on software development, Python programming, and machine learning. Experienced in building real-time applications, GUI-based desktop tools, full-stack web applications, and machine learning prediction systems using Python, Django, Laravel (PHP), Bootstrap, OpenCV, Tkinter, Pandas, NumPy, and Scikit-learn. Skilled in problem-solving, application development, database design, data preprocessing, model training, input validation, payment gateway integration, deployment, and presenting technical solutions clearly. Seeking opportunities as a Software Developer, Python Developer, or Machine Learning Engineer to contribute to technology-driven projects while continuously improving technical expertise.

## CORE SKILLS

**Programming Languages:** Python, PHP, HTML, CSS, SQL

**Web Development:** Django, Laravel, Bootstrap, Full-Stack Development, Responsive Web Design

**Database:** MySQL, SQL Schema Design

**Machine Learning & Data Science:** Machine Learning Basics, Pandas, NumPy, Scikit-learn, Data Preprocessing, Model Training

**Computer Vision:** OpenCV, YOLOv8, Real-Time Object Detection

**Software Development:** GUI Development, Desktop Applications, Input Validation, Error Handling, Application Logic

**Payment Integration & Deployment:** Razorpay, UPI/Card/COD Payment Flow, PythonAnywhere

**Tools & Platforms:** MS Excel, Tkinter, Python Libraries

**Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Strategic Thinking, Public Speaking

## PROJECTS & INITIATIVES

**Cyrox – E-Commerce Platform** *Django | Python | Bootstrap | Razorpay | PythonAnywhere* 2026

- Developed a full-stack e-commerce web application with authentication, product listing, cart, and checkout.
- Integrated Razorpay payment gateway supporting UPI, Card, and Cash on Delivery, with order history tracking.
- Designed a responsive Bootstrap UI and an admin panel (Jazzmin theme) for product and order management.
- Deployed the live application on PythonAnywhere with stock validation and inventory management.

**FTProcess – Business Process Web Application** *PHP | Laravel | SQL* 2026

- Built FTProcess (ftprocess.com), a business process management web application using the Laravel (PHP) framework.
- Designed the SQL database schema and implemented Laravel's MVC architecture (routes, controllers, models, Blade views) to handle core business logic.
- Delivered the completed application to a client for production use, handling the project independently end-to-end.

**Real-Time Object Detection System** *YOLOv8 | Python | OpenCV* 2024

- Developed a real-time object detection system using YOLOv8 with live webcam input, displaying bounding boxes and class labels.
- Implemented logic to differentiate between person detection and other detected objects.
- Ensured smooth webcam handling, exit conditions, and proper resource cleanup.

**Heart Disease Prediction System** *Machine Learning | Python* 2023

- Developed a machine learning model to predict heart disease using patient health parameters.
- Performed data preprocessing and model training using Pandas, NumPy, and Scikit-learn.
- Interpreted prediction results and presented findings clearly for academic evaluation.

## EDUCATION

**B.Tech in Computer Science & Engineering** 2022 – 2026

*R.R. Institute of Modern Technology (AKTU), Lucknow*

**Intermediate** 2020 – 2022

*MMM Intermediate College, Bhatpar Rani, Deoria*

**High School** 2020

*St. Xaviers School, Bhatpar Rani, Deoria*

## TRAINING & EXPOSURE

- Participated in workshops on communication skills and sales strategy.
- Attended mock client-handling and lead conversion sessions.
- Learned basics of digital marketing, online outreach, and branding concepts.

## ACHIEVEMENTS

- Earned Python Certification from Udemy.
- Recognized as an active participant in group discussions and presentations.
- Successfully completed multiple academic and technical projects.

## INTERESTS

Software Development, Python Programming, Machine Learning, Computer Vision, Full-Stack Web Development, Technology-Based Solutions, Public Speaking, Sports

## LANGUAGES

Hindi, English
